THE PRESIDENTIAL ELECTION.

The Result.

[From the New York Sun.] Though the returns of the elections of starting at once to New Orleans in response | Tuesday are yet far from complete, they very clearly indicate that Samuel J. This great victory has many points of significance. In an especial manner it is the triumph of reform in its every aspect. Though the Republicans raised the false issue of the "bloody shirt," Gov. "Peace on earth to men of good will" is the glorious message of this glorious day. The Disputed States.

[From the New York Sun.]

The States that are now in dispute between the two political parties are three, namely, Florida, Louisiana and South Carolina; all of them, it will be noticed, Southern States, and all of them since the war in the possession of the Republican party.

There can be no moral doubt how these three States have now voted. They must all have gone Democratic by ample majorities of the people, because there is no reason why they should not have shared in that general reaction which has successively wrested from Republican control all the other Southern States. In this general reaction Louisiana, the worst plundered and outraged, perhaps, of all, fully joined four-years ago by choosing a Democratic State Government by a large popular majority. This Government was, however, overthrown by fraud and force. The first agent of the conspirators, who had previously been in power, was the so-called Returning Board, body consisting of five members, who assumed not merely to canvass the votes of the State but to alter them and reverse them at their pleasure. In 1872 this Board pretended to canvass the returns and to delare the result, although there were actually no returns before them; but the people of the State refused to submit to their dea prominent share. It was in this city that cision, as the United States Senate has since repeatedly done in refusing to admit the grew out of a declaration of the same Board. President Grant, however, sent down soldiers to Louisiana, who enforced the declaration of this Board by turning out the lawfully elected State officers and installing those whom the Board had selected. This Board is now to pass upon the returns of the present election; and, although, as we have said, there is no doubt in the minds of intelligent men of either party that the vast majority of the ballots cast in the State is in favor of Tilden, it is believed by the Republicans that the declaration of the Board will be in favor of Hayes, and it is upon this expectation that the Republicans set up their desperate assertion that Hayes is Next in importance is the State of South

Carolina; and here, too, there is no reason to believe that the State has not followed the example of all the others by giving a majority in favor of the Democratic candidate. The canvass on the Democratic side has been conducted by Wade Hampton, an original Union man, well known to all the people of the State, colored as well as white, and in whose personal character all have candidate, Chamberlain, is a carpetbagger from Massachusetts, and the people, reduced to extreme poverty, they are, naturally revolt against continuing him power. is true that Gen. Grant, violating the law, has sent troops there to overawe the electors and compel the timid to vote with the Republicans; but this outrage has been met with such forbearance and prudence that it has not produced the effect designed; and Hampton and Tilden have been voted for by a majority of the people. This result, however, Zach Chandler and Jay Gould, at this moment the leading spirits of the Republican party, propose to set aside; and this expectation is one of the supports on which the assertion that Hayes will be declared elected has to rest.

In Florida the case differs somewhat through the addition to the people of that State of a considerable body of naturalized citizens, Cubans by birth, who have been driven to our shores by the civil war in that Island, and who have settled in Florida, where they can most conveniently pursue the manufacture of tobacco, to which they were trained at home. A great effort has been made by the Administration to enlist these Cubans in support of the Republican candidates, and one among them, a man who had fled from the city of New York on account of crimes in which he had been detected here, such as fraud and forgery, was appointed to office by Gen. Grant, and was nominated as a Republican candidate for Congress. But this attempt to se-duce the Cubans failed. They know too well the unfriendly conduct of the Republican party toward their native country; and they have voted for the Democratic candidates. A large proportion of native citizens have also voted with them, and the result is a solid Democratic majority in the State. This, however, Mr. Gould and Mr. Chandler likewise propose to reverse; and every application of bribery and fraud will be attempted to effect this purpose, because, unless they can succeed in it, Hayes can not be declared elected.

This, then, is the sum of the case. There are three disputed States. To declare Hayes elected he must have the votes of them all, but Tilden is elected by the vote of any one of them. This renders the problem of Gould and Chandler difficult. If but one State were in dispute, their success would be more practicable; but to carry all three, through fraud, is a much more roublesome scheme.

-The Countess Mary Joannini, the only American resident in Belgrade, has made an appeal to her countrymen on behalf of the homeless and suffering Servians. She computes the number of people needing aid at 250,000. The Countess Joannini will be remembered by old Washingtonians as Miss Mary Harrington, daughter of Mr. Chase's Assistant Secretary of the Treasury.
